Important Information: Growth Fund Estimated 2018 Capital Gains Distributions

To assist you with your year-end investment and tax planning strategies, the Jensen Quality Growth Fund is providing an updated list of preliminary estimates of its capital gains distributions.

The updated preliminary estimates are the result of revised tax treatment related to the merger of Praxair and Linde plc. Previously the merger had been considered to be a non-taxable event. However, the company has clarified that the merger represented a cross-border exchange for tax purposes and, as such, results in a step-up in the tax basis for Praxair shares that were exchanged for Linde plc shares. These revised preliminary estimates reflect the additional capital gains distributions associated with the Praxair-Linde plc merger.

Using the estimates below. The numbers are only estimates and are subject to change between now and the expected payment dates due to market movements, fund cash flows, ongoing portfolio transactions and other factors. The exact amounts to be paid by the Fund will be available on the Fund’s payable date. The dates shown are subject to change.

The Fund does not estimate quarterly dividends of net investment income.

Final capital gains distribution figures will be posted to the website on December 7, 2018.

Additional Reminders about Distributions:

- Distributions may also be subject to state and local income taxes.
- Selling or exchanging shares just prior to an anticipated distribution and buying them back later may trigger wash sale consequences, depending on the timing of the transactions.
- A purchase of shares just prior to a dividend or capital gain distribution results in a portion of the purchase price being returned to the investor as a taxable distribution.
- Corporations, trusts, partnerships, and other types of entities that own fund shares may have special tax considerations.

Please remember that this material is only a general discussion of capital gains and federal income tax matters, provided for educational and informational purposes only, and it is not intended as tax or investment advice or for use to avoid penalties that may be imposed under U.S. federal tax laws. Each investor’s tax and investment considerations may be different. If you have additional questions, please call your financial advisor or tax consultant.

The data shown above does not include estimates of payments of dividends from net investment income (which are taxed to individuals as ordinary income).

The Fund is non-diversified, meaning that it may concentrate its assets in fewer individual holdings than a diversified fund, and is therefore more exposed to individual stock volatility than a diversified fund. The prices of growth stocks may be sensitive to changes in current or expected earnings, may experience larger price swings and may be out of favor with investors at different periods of time. Mutual fund investing involves risk, and principal loss is possible.
